

Senior Asp.net Developer (full-stack)

Hello, I'm 61 years full stack net developer. I start learning programming since 1978 year (45 years ago) and start working as professional programmer since 1986 year (37 years ago) from Assembler IBM/360 as developer of Ukrainian National Cosmic Agency, than I pass a lot of various programming environment as IBM/370, RSX, RT-11 and a lot of various programming languages as PL/I, Clipper and so on. Since 2002-2003 year I moved from VB6 to VB.NET, and since then I passed all MS technology stack and now my point of interest are NET Core 7, Mobile phone and Angular. I can write in various languages, but always prefer VB.NET (if it possible).

I can use any kind of ASP.NET technology from ancient ASP and ASP.NET Classic and ASP.NET MVC to ASP.NET Core 6. In server side I can use any type of SQL Server, but prefer MySQL. In client side I can use jQuery, Blazor and Angular.

I can develop any kind of application - desktop, web sites, Windows and Linux services, Extension for Visual Studio, Project templates and kinds of library and API, please details list on my site.

Also I like tune various special Linux services, VPN, Firewalls, Routing and any kind of administrator tasks.

You can see screencast of my real working
<https://www.youtube.com/watch?v=wOZXtl-plK0>

Example of my application and something description of my application please see on my personal site
