[2006-2015] Senior developer (ASP.NET, Win, FLEX, SQL - developer. SQL, Network and System Administrator) - Russia

This is my biggest project, what I continuously developing more then 10 years. One of the biggest russian internet resource. ASP.NET and ASP.NET MVC technology (Visual Basic). This project has may be a one million string of source code. High load (millions cliens on mounth). I'm not only programmer of this resources, now I'm administator of all servers of this resources (8 unit on VmWare - Linux, Windows servers and bare metal firewals). This my work continuing at this time with small loading - some hour in month.

[2015] Project manager and senior developer (ASP NET MVC site and Windows application) - Canada

This MVC site written in my own CMS, that provide many levels user right. Ordinary users may adding to site future events with fotos to their community. Moderator of community combine events to community's calendar. Editor community in special windows applications create PDF-schema for print calendar in typography in high repolutions and for publish on this site in low resolution. More details of my used technology on this site see in page http://www.vb-net.ru/MVC/ , screen on windows application (PDF schema editor see in page http://www.vb-net.ru/PDF-Constructor/index.htm).

[2016] Project manager and senior developer (Administrator, Web-programmer, Flex-programmer, Video editor and other) - Bulgaria

OTT-television project - a bit of programming, but I have done full configurations of clear servers and bare metal firewals, include stream-server, web server, SQL-server, SVN server and other, installed web-cameras on clients, editing video and was doing all any task in this projects. More details http://vb-net.ru/desen/

[1986-1990] National Cosmic agency of Ukraine - Ukraine

System administrator IBM/360 & IBM/370
